TECHNICAL SKILLS

Languages
Java, JavaScript, TypeScript, PHP, C++, SQL, HTML5, CSS3

Frontend
React.js, Next.js, Tailwind CSS, Vite

Backend
Node.js, Express.js

Databases
MySQL, PostgreSQL, Prisma

Tools
Git, GitHub, VS Code, Postman, XAMPP

ADDITIONAL SKILLS

Professional
Problem solving, team collaboration, adaptability, technical writing, commitment

Languages
Amharic (Native), English (Professional working proficiency)

PROFESSIONAL SUMMARY

I am writing to express my strong interest in the Software Engineering Internship. As a fourth-year Software Engineering student at Injibara University with a CGPA of 3.9, I am eager to apply my academic foundation to practical, real-world software projects while learning from experienced developers in a professional environment.

My primary focus lies in web and mobile application development. Through my coursework and personal projects, I have developed practical skills in building responsive user interfaces, designing RESTful APIs, and working with database-driven applications. My technical toolkit includes React, Node.js, Express, TypeScript, JavaScript, and SQL.

I am highly motivated to keep learning, adapt to professional development practices, and incorporate feedback to continuously improve the quality of my work. I would welcome the opportunity to support a development team while gaining hands-on experience with production-level workflows. I bring curiosity, dedication, and a strong work ethic to every team I join.

EDUCATION

B.Sc. in Software Engineering, Injibara University
Expected Graduation: 2028
GPA: 3.60 / 4.00 (cumulative, first 3 years)

PROJECTS

Online Bus Ticketing System

Next.js, TypeScript, PostgreSQL, Prisma

- Developed a web-based bus ticketing system with route and schedule search.
- Implemented seat selection, booking, and ticket-detail workflows.

Car Rental Management System

React, Node.js, Express.js, MySQL, Tailwind CSS

- Developed a full-stack application for managing car rental operations.
- Built a responsive frontend and backend services connected to MySQL.

E-Commerce Website

Next.js, React.js, Node.js, Express.js, MySQL, Tailwind CSS

- Developed an e-commerce website with core product and shopping functionality.

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Systems • Web Engineering • Software Architecture • Operating Systems • Computer Networks • Software Requirements Engineering • Distributed Databases
